At request of Cst Kim Robinson, I returned to the Northridge Rd area for a broader search, specifically for the victim's cane. I deployed the dog to search circumference of 5572 Northridge ( victim's address ). We also searched both sides of Northridge to Novalea Dr with negative results.

We searched area surrounding [REDACTED] Kencrest Av. This building overlooks the site where the victim was located. On the East and North sides, there is a bank which is accessible - obstructed only by a low guardrail. We checked this bank, as well as the areas above and below it - negative results.

Dog was also taken along the dirt road below the scene, up to and including the path back up to the corner of Novalea/Northridge. There is a 2' x 3' hole in the fence at the S/W corner of the fence adjacent to Novalea/Northridge that would provide access to site of victim's location, but it requires some effort to get through it.

From victim's home, there is no access through the fence along Northridge, until the corner of Novalea/Northridge.
